

Dylan Bracken

dylanbracken30@gmail.com - (401) 336-0474

Summary

Data and compliance professional with an academic background in international relations, cross-jurisdictional policy research and Mandarin Chinese. Skilled in Excel, SQL, Python, and Salesforce Analytics with experience cleaning, modeling, and validating large-scale financial datasets to ensure broker/dealer regulatory compliance. Proven ability to monitor regulatory developments, synthesize complex findings, and communicate data-driven insights to senior management and cross-functional stakeholders. Eager to apply analytical research skills and international perspective to regulatory strategy and capital optimization in capital markets. **Data visualization portfolio:** <https://braxda.github.io/>

Work Experience

Citizens Securities, Inc.

April 2025 - Present

Data Remediation Specialist

Johnston, RI

- Analyzed OFAC reports and enforced broker/dealer KYC compliance standards; performed root cause analysis on data anomalies and coordinated with external data aggregators to prevent recurrence.
- Integrated and validated financial data across Salesforce, MyView, OFAC reports, and Wealthscape to identify client account discrepancies and drive remediation across 80,000+ accounts where clients had missing or incorrect data.
- Designed and documented end-to-end team procedures from the ground up, presenting and defending methodology to Risk Management, including systems impacted and compliance rationale.
- Designed dashboards in Salesforce Analytics Studio and Excel to identify 13,000+ clients missing internal Brokerage Identification Numbers and managed account creation and linked heldaway third-party accounts to internal systems for compensation tracking and reporting compliance.
- Applied AI-assisted tools to build Python automation scripts, streamline data workflows, and accelerate analysis, including parsing unstructured data related to the 13,000+ client records missing Brokerage Identification Numbers.
- Collaborated cross-functionally with technical and non-technical stakeholders to develop solutions and implement and validate fixes across business systems.
- Onboarded and mentored junior team member on remediation procedures, compliance standards, and internal systems.

Chisholm Chisholm & Kilpatrick, LTD

July 2023 - March 2025

Trusts and Estates Case Manager

Providence, RI

- Managed a caseload of 250+ trust and estate cases annually, coordinating and facilitating gifts made to charitable organizations, resulting in the distribution of over \$10 million in assets.
- Audited estate accountings and benchmarked attorney and trustee fees against state statutes and historical case data to identify outliers and recover excess distributions for clients.
- Developed and presented legal reports and visualizations, transforming statutory and financial data into actionable insights for supervising attorneys and charitable clients.
- Collaborated with attorneys, trustees, and financial institutions to ensure reporting accuracy and timely distributions.

Covenants Watch

Dec. 2021 – June 2022

Data Research Intern

Taipei, Taiwan

- Monitored and analyzed international human rights law and regulatory policy developments across 25+ countries, synthesizing findings into structured datasets and reports to inform organizational advocacy strategy.
- Translated Mandarin-language policy articles and regulatory materials into English for publication, supporting cross-jurisdictional research and communications reaching thousands across Taiwan.

Education

University of Rhode Island

May 2023

Bachelor of Arts, Chinese and International Relations; Business Minor

Kingston, RI

- Studied abroad and interned in Taipei, Taiwan from September 2021-June 2022 (National Yang-Ming Chiao Tung University)
- Capstone: Four-year research project analyzing China's Belt and Road Initiative vs. the Blue Dot Network — examining competing international infrastructure investment frameworks, trade policy, and geopolitical capital strategy — presented entirely in Mandarin Chinese at National Yang-Ming Chiao Tung University.
